FI 1110 – Top 10 Closing Delays and Title Insurance: What it does and who it Protects (Elective)

Wednesday, November 7, 2018 9:00 A.M. – 12:00 P.M.
(564002859) Three-hour elective course

Instructor: Sally Steining

This class will help attendees become more familiar with issues that occur in real estate transactions that can delay or derail the closing. Becoming familiar with them will help when the issue occurs in their closing, so they can act quickly. Almost all issues can be corrected with time, money or documents, but if they are not found early enough, the closing is delayed.

RD 973 – Hacked and Attacked (Elective)

Wednesday, November 7, 2018 1:00 P.M. - 4:00 P.M.
(564002789) Three-hour elective course

Instructor: Sally Steining

This class will make real estate professionals aware that they and their customers are vulnerable in today's world and the world of the internet and e-mail. Just by clicking on a link, they can expose their own and/or their client's information to cyber criminals. Many real estate agents believe that their title company or attorney will be sued, but they won't. More and more real estate agents are being included in the suit when funds go astray—especially if they are the causal link. In today's class we will learn how to protect the real estate agent, their client and their family from cyber criminals, fraudsters and identity thieves.
